### **TMD appoints new Sales & Business Development Director**

TMD Technologies Limited (TMD), an independent manufacturing SME in the microwave and RF field, has appointed Jane McAlister to the executive board as Sales and Business Development Director. In her new key position she will be responsible for leading and guiding TMD's sales and business development teams in all aspects of their operations, to further increase the company's on-going growth.

Jane McAlister comes to TMD with an impressive portfolio of experience in selling technology, mainly in the international defence and security sectors – from counter IED robots and engine jamming devices, to oxygen activators on the new Airbus A380. In these areas she has successfully established markets for new products and developed new solutions to meet future demand.

Commenting on her new appointment, Jane said: "I was immediately attracted to TMD as a company, particularly by the integrity of its people and its absolute focus on quality and customers. I welcome the opportunity to help drive the business forward."

Jane McAlister: *'Immediately attracted to TMD.'*

“I am delighted with the appointment of Jane McAlister in this vital role”, said TMD’s Managing Director, Dave Brown. “Her proven abilities and experience are exactly what we need to address our current priorities, with an emphasis on the introduction of new products into our existing markets and the opening up of new ones.”

### Well balanced board

Continued Dave Brown: “Jane’s appointment means that TMD’s executive board is now one third female, providing a better balanced team. Having the right mix on the board is key to making the best decisions for TMD.”

## **TMD Technologies Limited – More than 20 years at the top!**

*TMD’s headquarters in West London. Last year, the company celebrated 20 successful years at the top of its profession as an independent design and manufacturing SME in the microwave and RF field.*

TMD Technologies Ltd is one of the world’s leading designers and manufacturers of specialised transmitters, amplifiers, microwave power modules (MPMs), high voltage power supplies and microwave tubes for radar, EW and communications applications. The multiple Queen’s Award winning company also produces a range of advanced instrumentation microwave amplifiers for EMC testing, scientific and medical applications.

### **TMD Technologies, LLC, USA**

TMD Technologies, LLC is the US subsidiary of TMD Technologies Ltd, set up in Baltimore, Maryland in 2013; its purpose being to provide excellent commercial and technical support to TMD’s customers in the USA. The company is now well established, the product repair and service centre is up and running and its Sales and Marketing Department is engaged in new business development in the USA - for the whole range of TMD’s products.
